Maharani Padma Sundari Devi
Founder of Krishna Chandra College

Welcome, everybody. The vision of the institute is to make the students cognitively sound and ethically strong, enabling them to contribute to the task of nation-building. The mission of the institute is to provide universal access to learning irrespective of caste, creed, and social strata. The college authority sincerely and honestly cares for the very purpose of its existence, which is to expand the scope of higher education for the weaker sections of society, including students from poor financial backgrounds, first-generation learners, and marginalized individuals. The college aims to ensure that no student is deprived of higher education due to financial and other constraints prevalent in society at large. In line with higher education policy, we aim to contribute to national development through the dissemination of specialized knowledge and skills. We believe that if a student is proficient in a particular subject, they can successfully navigate and resolve various aspects of their life, including matters pertaining to humanity. Considering the socio-economic status of the locality, we may have to compromise on quality to ensure the spread of education among all students, irrespective of caste, creed, and gender.

Dr. Goutam Chatterjee
M. Com., Ph. D.
*Principal, K.C. College*

History of the College

Krishna Chandra College was established in 1897 in the heart of Hetampur village in the Birbhum district of West Bengal. It is the oldest college in the district, creating an atmosphere of learning and pedagogy for the first time in this area. It was founded by Maharani Padma Sundari Devi, the wife of Maharaja Ramranjan Chakraborty, in the name of her father-in-law, Raja Krishna Chandra. Before formally starting its operations, the college received approval from the University of Calcutta in 1896 to initially offer Arts courses. For approximately 25 years, the college functioned as an intermediate college. In 1923, it obtained permission to teach the B.A. course. In 1956, the college became a government-sponsored institution, and the B.Sc. course was introduced in 1958.

Since the early sixties, the college began to offer Honours courses, gradually expanding its offerings. Currently, it has 15 departments in Arts, Science, and Commerce streams, which is a significant achievement for a college located in a rural area. The college has consistently aimed to promote the idea of inclusive and comprehensive education without compromising on quality, which has been its important vision since its inception.

Mode of Teaching

Classroom Teaching

In our classroom, our expert faculty members utilize a combination of traditional chalk and talk methods and modern ICT (Information and Communication Technology) approaches as the main teaching platform. They employ interactive whiteboards, multimedia presentations, and educational apps to enhance student engagement and comprehension. Alongside these methods, the faculty members also make effective use of teaching learning materials, ensuring a well-rounded learning experience. Additionally, they provide study materials to students as needed, supporting their individual learning requirements. By incorporating both traditional and technology-driven methods, our classroom fosters a dynamic and inclusive environment for effective knowledge transfer.

Online Teaching

During special situations, our expert faculty members seamlessly transition to online teaching, conducting classes, assignments, and examinations using diverse platforms. They leverage technology to ensure an uninterrupted learning experience for students. To facilitate independent study, the faculty members provide study materials and share YouTube links on our college website, as well as their personal websites or WhatsApp groups. This approach empowers students to access resources and engage with the material at their convenience, enhancing their understanding and academic growth.
