*Welcome Everybody. The vision of the institute is to make the students cognitively sound and ethically strong so as to enable them to carry out the task of building of the nation, while the mission of the institute Universal access of learning irrespective of the caste and creed and among all the strata of the society. The college authority sincerely and honestly care for the very purpose of its existence: expanding the scope of higher education for the weaker sections of the society including students of poor financial background, who are first generation learners, students who are marginalized in the society. The college wants to see that no student is deprived of Higher Education due to financial and other constraints that are prevalent in the society at large. In tune with Higher Education policy we are aiming to contribute to national development through dissemination of specialized knowledge and skills. We believe that if a student is cognitively sound in a particular subject then he can face and solve every aspect of his life which includes the issues of humanity also. Considering the socio-economic status of the locality, we have to compromise with quality to ensure the spread of education among all students irrespective of caste, creed and sex,*
